

# MAKE A COOL SUMMER JOURNAL

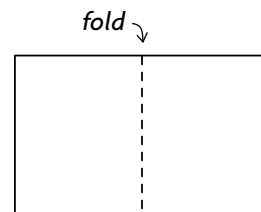

## YOU NEED:

- Printed journal pages and cover
- Glue stick

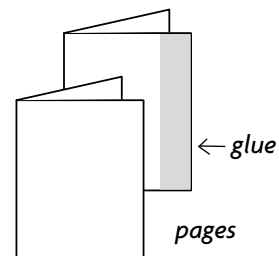

## MAKE IT!

- 1** Set aside the cover page.  
Fold all the journal pages in half.

- 2** Put glue along the edge of the blank side of a journal page. Line it up with the edge of the next page and press hard. Repeat this with the rest of your journal pages.

- 3** Fold the cover page in half and wrap it around the journal pages. Glue the inside edge of the front cover to the edge of the first journal page. To finish your journal, glue the inside edge of the back cover to the edge of the last journal page.
