

Invent a Buzzing Buzz Trap (continued)

3 Invent Your Own Buzz Trap

Make a plan and build your invention.

Make a sketch to show your plan

4 Test Your Trap

Does it work? If it does, great job! But if it doesn't, don't give up. What could you do differently when you try again?

How Am I Inventing?

Many inventions start out as failures. Successful inventors think about their mistakes and try again until the invention works. This is called *persistence*. When you invent your Buzz Trap, you can't be sure what will work and what won't. But keep trying until you get the results you want. Persistence pays off!
