

## Pictograph-Survey

This is what you will see when you open the Pictograph–Survey file on the SMART® Board:

You can:

- Use a SMART Board pen to write a question (with two possible answer choices) at the top of the screen.
- Write the answer choices in the two white rectangles.
- Invite students to choose an answer and place a stick figure in the first available space in that row (by touching the replicating stick figure and dragging it to the correct space).
- Remove a stick figure placed in the wrong spot by selecting the undo button in the toolbar.
- Use the completed pictograph to determine which answer was chosen by the most students.
- Clear the pictograph by selecting the reset page button on the toolbar.

This is an example of a completed pictograph:
