A Between the Lions game for two or more players.

Print out the game board and all four pages of game pieces (the category cards). Cut the cards out and shuffle them into a pile.

Find some coins. All players choose a different coin to be their playing piece. Place all the coins on the A space. The youngest person goes first.

You have to hop your coin from A to Z. To move, you pick a card from the pile and try to answer the question.

In addition to the regular cards, there are several special cards. Eight of these cards will move you 2 spaces ahead or back. Two will allow you to switch places with another player. And one will send you to M, regardless of where you are. With these special cards, there is no need to think of an answer (until your next turn, of course).

If you can't answer the question on the card, you miss a turn. On your next turn, you can draw another card and try again.

If you run out of Game Pieces, shuffle them and start the pile again.

The winner is the first one to reach the library, which is one spot past Z. You do not need to land exactly on the library to win.
