

Trading Post Mix-up!

Five young natural scientists (Nina, Ravi, Candy, Ben, and Michala) each brought one object to their nature center. Can you figure out who brought each item? Use the clues to match each person to his or her object. You can use the grid to help eliminate choices as you go through the clues (put 'yes' or 'no' into a square, according to what the clue tells you).

Person	pine cone	shark tooth	snakeskin	bird nest	agate
Nina					
Ravi					
Candy					
Ben					
Michala					

Clues:

1. Nina's object did not come from a plant.
2. Ravi's object was formed hundreds of thousands of years ago.
3. Candy's object fell from a tree.
4. Ben's object carries seeds.
5. Michala's object was found at the seashore.

Answer: Nina - snakeskin; Ravi - agate; Candy - bird nest; Ben - pine cone; Michala - shark tooth
